TRANSLATIONS ON REQUEST

If you need a law translated into English that is currently only available in Arabic our local team will prioritise your request and send it to you before loading onto the service.

RESEARCH ON REQUEST

Our locally based team will carry out any research query you have[†] free of charge and get the answers back to you within 24-72 hours. Whether you have subject-specific questions, you want to know about latest developments in the region or you want us to follow up a rumour that you've heard – we'll look into it. The relationships we've built up in the region with key industry players and regulatory bodies mean we ask the right people the right questions.

FULLY SEARCHABLE

The text of all our translations is fully searchable. That means that as well as searching for the name of the Act itself, you can also search for terms within the translations.

Our Master Gazette Index lets you search through the titles of all laws in English. That means that even if you are not an Arabic speaker you'll be able to find a piece of law regardless of whether it is in Arabic or English.

FULLY CONSOLIDATED TEXT

And to make sure that you are relying on the latest information, all our translated laws are consolidated with all amendments.
