When you take out a subscription service you are entering into a continuous subscription agreement which means that your subscription will automatically renew in future years unless it is cancelled in accordance with the provisions of our Terms of Trading. We will send you an annual subscription statement to enable you to amend your subscription(s). Please see our Terms of Trading for more information (available on request and at www.sweetandmaxwell.co.uk/terms-of-trading.aspx).

CHARGE BY RELEASE TITLES

Some Sweet & Maxwell looseleaf publications are sold on a ‘charge by release’ basis. Upon receipt of your initial order for the looseleaf mainwork, we will register you for the updating service. - Advises on how best to approach common fraud factual scenarios
- Investigates difficult or developing areas of law, such as in relation to proprietary claims or the principle of piercing the corporate veil
- Advises on the way in which a fraud case should be presented legally or how applications for early interim remedies should best be made or resisted
- Helps practitioners translate the fact pattern they are presented within their instructions into the correct legal framework
- Maps fact patterns commonly encountered into causes of action that might be pleaded and relief that might be sought in respect thereof and a mechanism which gives the reader a road map from factual instructions to completed legal analysis
- Draws together the disparate areas of the law that “fraud” covers—encompassing breach of contract, tort, equitable claims and restitution, not to mention the international and procedural aspects with which the practitioner has to be familiar
- Covers international litigation, looking at the practical mechanics of enforcing a civil fraud claim overseas—the gathering of evidence from overseas, overseas witnesses and enforcement of judgments overseas

Class Actions
1st Edition
Damian Grave; Gregg Rowan (with a team of contributors)

- The main causes of action are examined for shareholder claims in England and Wales as well as shareholder activism and the impact of regulatory action
- Covers the basis of claims and causes of action in human rights and environmental issues, looking at the impact of increased scrutiny of human rights and environmental compliance and relevant international laws and principles
- Investigates competition claims in the light of new legislation—the Consumer Rights Act 2015, brought into force in October 2015—as well as safeguards to avoid frivolous or unmeritorious claims and opt-out collective settlement or voluntary redress schemes and the EU antitrust damages directive

Privilege
4th Edition
Colin Passmore

• Explains the law of contentious and non-contentious privilege in all its aspects
• Goes through the core principles of legal professional privilege, including its rationale and the nature of the right
• Looks at what constitutes privilege
• Identifies situations where privilege occurs
• Examines the boundaries of privilege
• Covers the circumstances when privilege is deemed to be loss of privilege
• Considers in detail ‘advice privilege’ and ‘litigation privilege’, covering the essential elements of both, the distinction between the two and matters specific to each such as the client-lawyer relationship, confidential communications and third party communications for ‘advice privilege’, and legal proceedings, expert witnesses, witness statements, and criminal proceedings for ‘litigation proceedings’
• Assesses whether a documentary communication which was not made in privileged circumstances can subsequently be subject to legal professional privilege
• Deals with the consequences where the subject matter of a privileged communication is one in which two or more persons can establish a joint or common interest
• Addresses the general principles underlying the ‘crime-fraud exception’, how it applies in both civil and criminal proceedings and the grounds on which it can be invoked
• Shows how a claim to privilege is made in civil litigation, when it can be challenged, the circumstances in which a court will exercise its right to inspect documents of which the claim to privilege is made and what happens when an order for production is made in respect of materials which are privileged in part only
• Takes into account the without prejudice privilege and how it differs from legal professional privilege
• Analyses key judgments which have established the principles of privilege
